

SPRAVATO withMe Provider Portal User Guide

Please see additional Important Safety Information on pages 34 and 35, and full [Prescribing Information](#), including Boxed WARNINGS, and [Medication Guide](#) for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

INDICATIONS AND IMPORTANT SAFETY INFORMATION:

INDICATIONS:

SPRAVATO[®] (esketamine) CIII Nasal Spray is indicated, in conjunction with an oral antidepressant, for the treatment of:

- Treatment-resistant depression (TRD) in adults.
- Depressive symptoms in adults with major depressive disorder (MDD) with acute suicidal ideation or behavior.

LIMITATIONS OF USE:

- The effectiveness of SPRAVATO[®] in preventing suicide or in reducing suicidal ideation or behavior has not been demonstrated. Use of SPRAVATO[®] does not preclude the need for hospitalization if clinically warranted, even if patients experience improvement after an initial dose of SPRAVATO[®].
- SPRAVATO[®] is not approved as an anesthetic agent. The safety and effectiveness of SPRAVATO[®] as an anesthetic agent have not been established.

IMPORTANT SAFETY INFORMATION

WARNING: SEDATION; DISSOCIATION; RESPIRATORY DEPRESSION; ABUSE AND MISUSE; and SUICIDAL THOUGHTS AND BEHAVIORS

See full prescribing information for complete boxed warning

- **Risk for sedation, dissociation, and respiratory depression after administration. Monitor patients for at least two hours after administration (5.1, 5.2, 5.3).**
- **Potential for abuse and misuse. Consider the risks and benefits of using SPRAVATO[®] prior to use in patients at higher risk of abuse. Monitor for signs and symptoms of abuse and misuse (5.4).**
- **SPRAVATO[®] is only available through a restricted program called the SPRAVATO[®] REMS (5.5).**
- **Increased risk of suicidal thoughts and behaviors in pediatric and young adult patients taking antidepressants. Closely monitor all antidepressant-treated patients for clinical worsening and emergence of suicidal thoughts and behaviors. SPRAVATO[®] is not approved for use in pediatric patients (5.6).**

Introduction

Welcome to the SPRAVATO withMe Provider Portal, your online resource for patient-level visibility into activity progress on Savings Program enrollment and claims management, benefits investigations, prior authorizations, appeals, coding, reimbursement, and other SPRAVATO withMe resources.

This User Guide will show you what the SPRAVATO withMe Provider Portal provides and how to navigate the site.

Benefits of the SPRAVATO withMe Provider Portal

Benefits of using the portal include:

Savings Program Management

- Instant download of Savings Card upon patient enrollment in the SPRAVATO withMe Savings Program
- The ability to view the balance of a patient's Savings Card
- The ability to upload, manage Savings Claims, see confirmation of receipt, check status, and generate a Savings Claim report
- The ability to see reasons why a rebate was denied
- The ability to confirm AOB on file

Patient Coverage & Dispense Visibility

- SPRAVATO withMe program enrollment and patient authorization form (PEF) includes options to enroll patients in Savings Program, Observation Rebate Program, and/or Care Navigator support, as well as upload a signed assignment of benefits (AOB)
- Benefits investigation request and re-verification options
- Prior authorization support including Letter of Medical Necessity
- Prescription status for select pharmacies

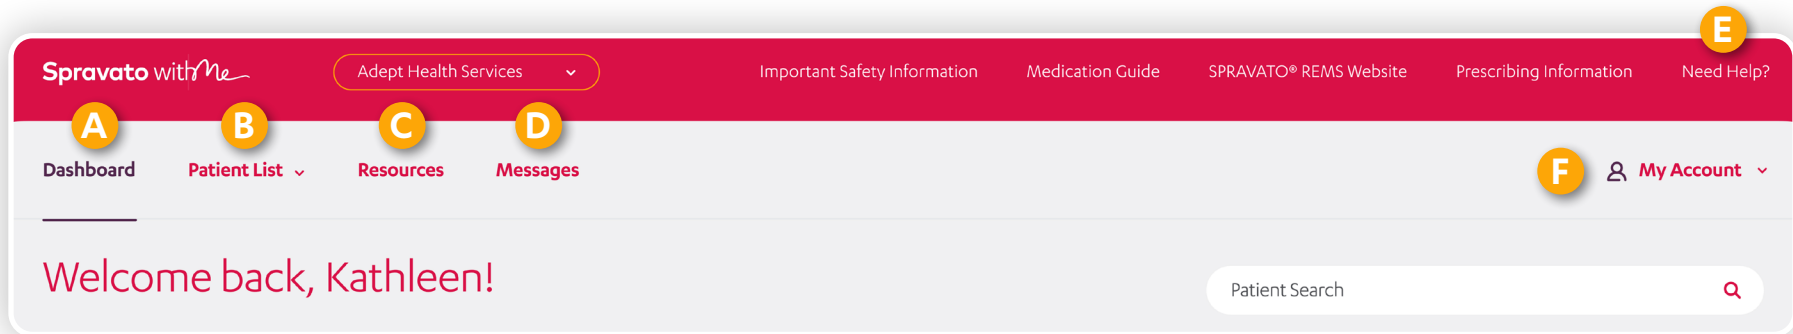

Office Management Tools

- 2-way secure messaging with a Case Manager
- Streamlined patient enrollment, which can be completed in-office
- Visibility to see patient case details within multisite practice locations by your Site or Network Admin

Please see **Indications and Important Safety Information** on pages 1, 34, and 35, and full **Prescribing Information**, including **Boxed WARNINGS**, and **Medication Guide** for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

Provider Portal Structure

A DASHBOARD: A list of actions needed, status updates, and most recent messages

For more information on the Dashboard, [please see page 11](#)

B PATIENT LIST: At-a-glance view of topical patient lists, with extensive filters and sorting options

For more information on the Patient List, [please see page 28](#)

C RESOURCES: Helpful reference materials and templates

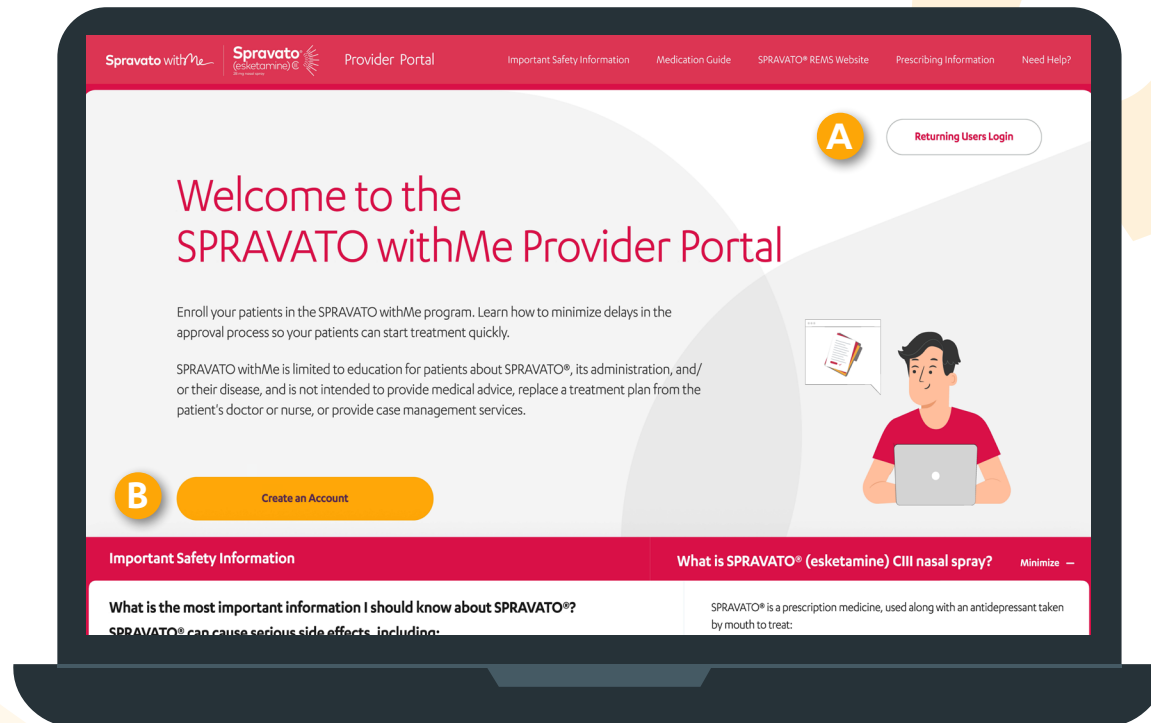

D MESSAGES: Your inbox for all SPRAVATO withMe communications

E NEED HELP?: Support and guidance when you need it

For more information on the Need Help? button, [please see page 30](#)

F MY ACCOUNT: For more information on the My Account page, [please see page 12](#)

Creating a Portal Account

This is the portal landing page.

- A RETURNING USERS LOGIN:** If you've already registered for the portal, you can log in to your account by clicking here and entering your login information

Returning Users Login

- B CREATE AN ACCOUNT:** If you have not already registered for the portal, you can begin the process of creating your account by clicking here

Create an Account

Please see Indications and Important Safety Information on pages 1, 34, and 35, and full Prescribing Information, including **Boxed WARNINGS**, and Medication Guide for SPRAVATO®, also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO®.

Creating a Portal Account (Cont'd)

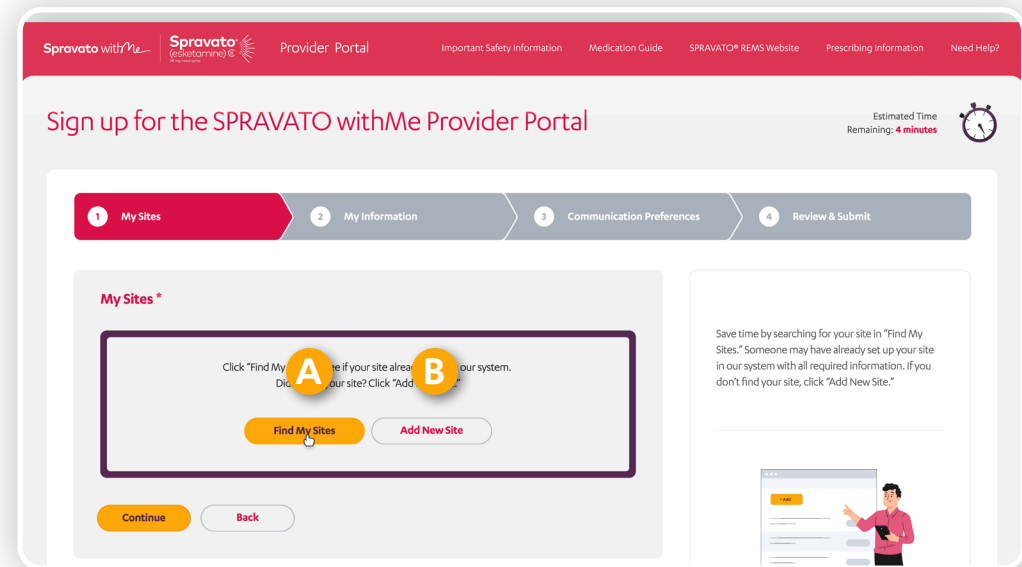

This is the start of the account registration process. You will see this screen when you click **Create an Account**. All users are considered Site Staff when their account is created. Users will be further designated as one of the following roles: “Educator,” “Physician,” “Nurse,” “Physician Assistant,” “Medical Assistant,” “Office Manager,” “Nurse Practitioner,” “Office Staff,” “Pharmacist,” or “Other.”

Users can also be granted Admin permissions. Admin permissions are limited to managing Site information and Staff profiles and access. All other privileges are the same.

Please note: The user that creates the Site is automatically designated as Site Admin.

Network Admins get access to all Sites on the network. They can edit all Site information and all Staff profiles, including approving/rejecting Staff access, across all Sites.

Site Admins can edit Site information and Staff profiles, including approving/rejecting Staff access, for their Site(s) only.

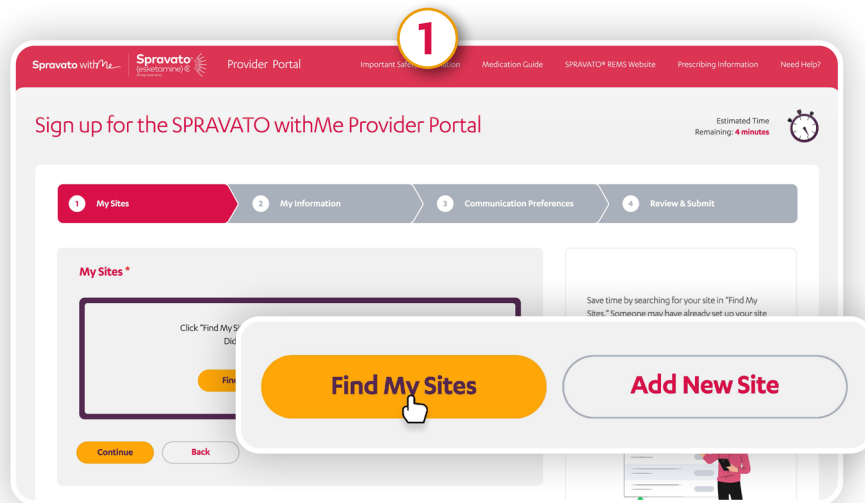

- A FIND MY SITES:** If your Site(s) already exist in the system, you will be able to search for them by clicking here
- B ADD NEW SITE:** If your Site is not already in the system, you can begin the process of adding it by clicking here
 - Sites can be added at a later time from the Site Management section of the My Account screen
 - Only users with Network Admin permissions may add affiliated Sites – other users should call **844-4S-WITH-ME (844-479-4846)** so a Case Manager can add the Site

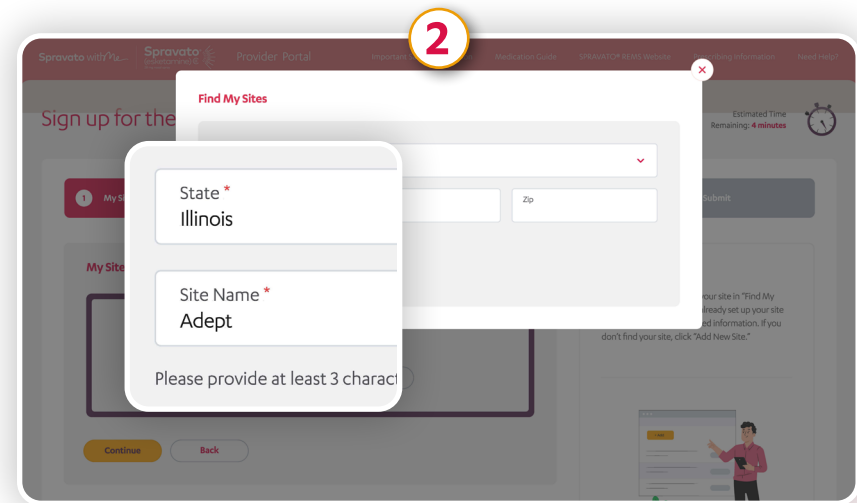

If your Site is part of a Multi-Site Network, you will be able to view all patients across the different Sites from the portal.

Please see Indications and Important Safety Information on pages 1, 34, and 35, and full Prescribing Information, including Boxed WARNINGS, and Medication Guide for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient’s doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

Adding a New Site

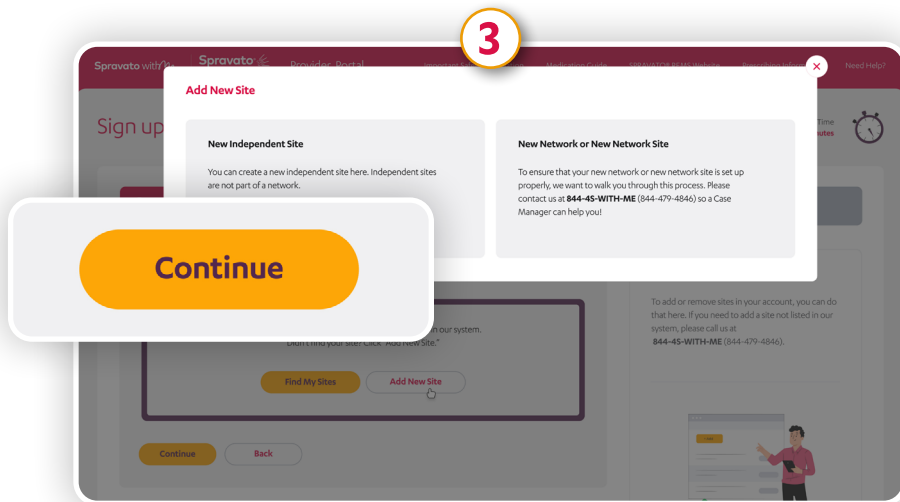

At the beginning of the sign-up process, you will be given the option to **Find My Sites** or **Add New Site**.

Click **Find My Sites** to search existing Sites by State and Site Name.

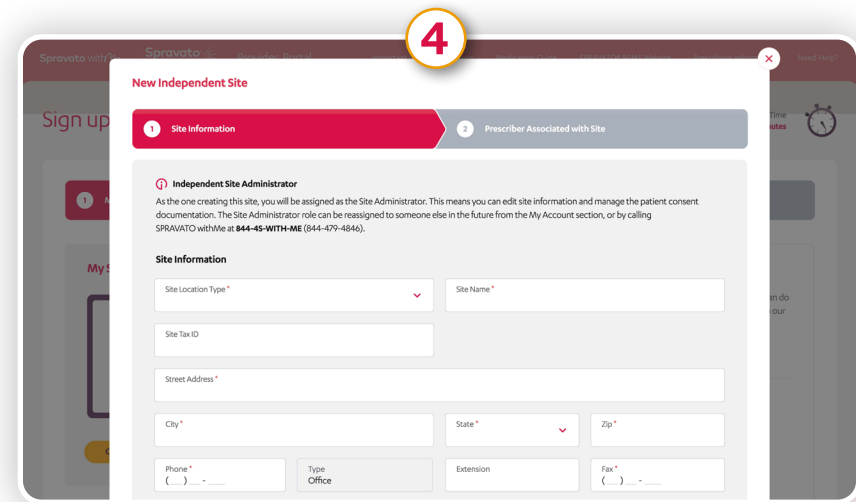

[Continued >](#)

Adding a New Site (Cont'd)

Click Add New Site if your Site hasn't already been enrolled. If you are creating a New Independent Site, click Continue to proceed.

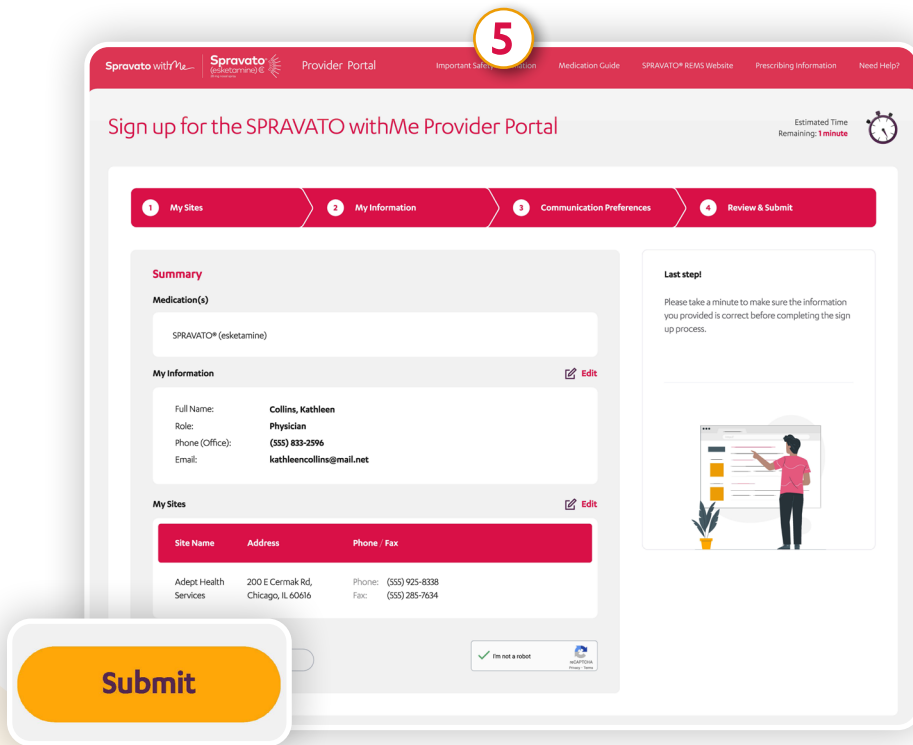

If you are creating a New Network or New Network Site, you will need to call **844-4S-WITH-ME (844-479-4846)** so that a Case Manager can help facilitate.

Next, add all the information requested about the Site, and the Prescriber associated with the Site.

Find More Network Sites

Remove

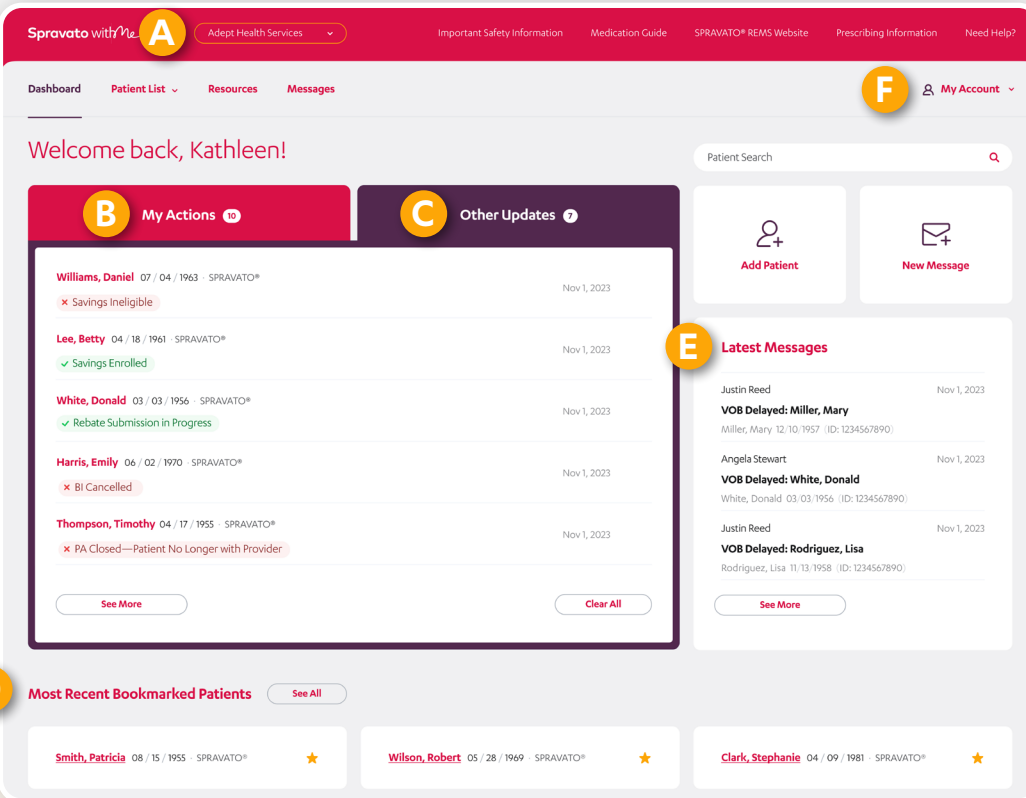

From this screen you can initiate the process described above using the **Find More Network Sites** button. You can also use the **Remove** button to remove a Site. Only Network Admins and Site Admins may remove a Site.

Please note: Removing the Site will also remove all Patients associated with that Site. If you want to transfer Patients to another Network Site prior to removing a Site, please call your Case Manager.

Please see Indications and Important Safety Information on pages 1, 34, and 35, and full Prescribing Information, including Boxed WARNINGS, and Medication Guide for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

Dashboard

The SPRAVATO withMe Provider Portal is a consolidated overview of your day-to-day actions and updates. This will be your landing page when you log in to the Provider Portal, giving you immediate access to priority actions and relevant updates based on recent activity.

The screenshot shows the Spravato withMe Provider Portal dashboard. At the top, there is a navigation bar with the Spravato withMe logo, a dropdown menu for 'Adept Health Services', and links for 'Important Safety Information', 'Medication Guide', 'SPRAVATO[®] REMS Website', 'Prescribing Information', and 'Need Help?'. Below the navigation bar, there are tabs for 'Dashboard', 'Patient List', 'Resources', and 'Messages'. A 'Welcome back, Kathleen!' message is displayed. The main content area is divided into several sections:

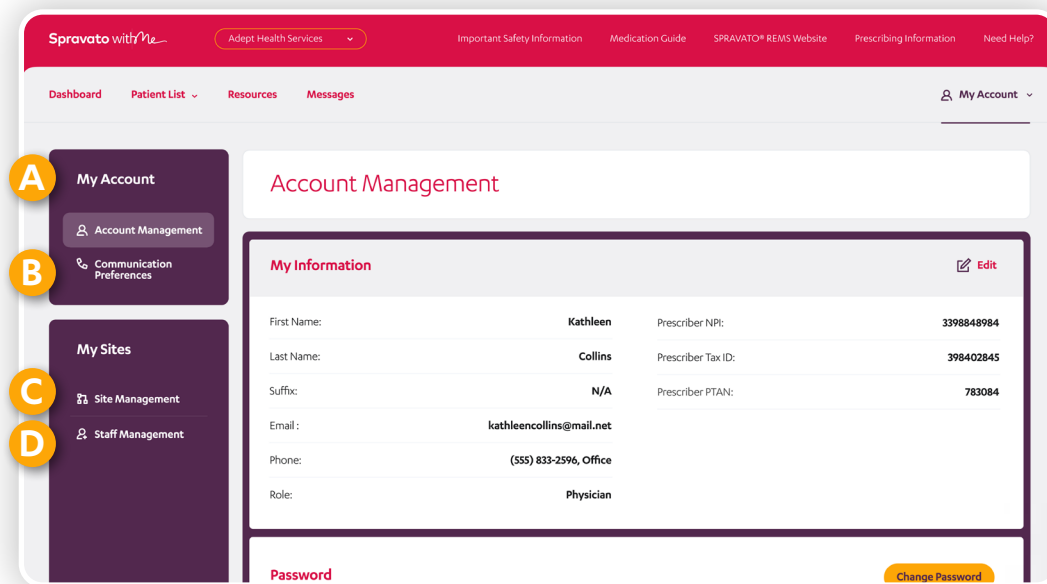

- My Actions (B):** A list of actions for patients, including:
 - Williams, Daniel (07 / 04 / 1963 - SPRAVATO[®]): Savings Ineligible (Nov 1, 2023)
 - Lee, Betty (04 / 18 / 1961 - SPRAVATO[®]): Savings Enrolled (Nov 1, 2023)
 - White, Donald (03 / 03 / 1956 - SPRAVATO[®]): Rebate Submission in Progress (Nov 1, 2023)
 - Harris, Emily (06 / 02 / 1970 - SPRAVATO[®]): BI Cancelled (Nov 1, 2023)
 - Thompson, Timothy (04 / 17 / 1955 - SPRAVATO[®]): PA Closed—Patient No Longer with Provider (Nov 1, 2023)
- Other Updates (C):** A section for 'Latest Messages (E)' showing:
 - Justin Reed: VOB Delayed: Miller, Mary (Nov 1, 2023)
 - Angela Stewart: VOB Delayed: White, Donald (Nov 1, 2023)
 - Justin Reed: VOB Delayed: Rodriguez, Lisa (Nov 1, 2023)
- Most Recent Bookmarked Patients (D):** A list of patients with star icons:
 - Smith, Patricia (08 / 15 / 1955 - SPRAVATO[®])
 - Wilson, Robert (05 / 28 / 1969 - SPRAVATO[®])
 - Clark, Stephanie (04 / 09 / 1981 - SPRAVATO[®])
- My Account (F):** A dropdown menu for user account management.

- A CURRENT SITE:** Sites that the user has access to can be selected using this dropdown menu
 - Patients displayed in the Dashboard are associated with the currently selected Site
- B MY ACTIONS:** A list of actions needed by you for your patients
 - As actions are performed and the system is updated with changes, completed actions will be removed, and new actions will be added as needed
- C OTHER UPDATES:** A list of the most recent status updates for your patients
 - Updates shown in this section are included only to record progress and do not currently require action from you
 - As the system is updated with changes, only the latest status will be shown
- D MOST RECENT BOOKMARKED PATIENTS:** Quick access to patients you've bookmarked
 - You can bookmark patients anywhere on the Provider Portal by clicking the **star** displayed next to the patient's name
- E LATEST MESSAGES:** Preview of the most recent messages received in your SPRAVATO withMe inbox
- F MY ACCOUNT:** Options related to your user account, site management, and staff management

Please see Indications and Important Safety Information on pages 1, 34, and 35, and full Prescribing Information, including **Boxed WARNINGS**, and Medication Guide for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

My Account

Clicking on My Account from anywhere in the portal will allow you to navigate to the various pages of the My Account tab. The My Account tab allows you to manage your account, including details and options related to your Sites and Staff.

Password Change Password

- A ACCOUNT MANAGEMENT:** Make any changes to your personal information, or change your password
- B COMMUNICATION PREFERENCES:** Control how you would like to see communications from SPRAVATO withMe
- C SITE MANAGEMENT:** Add affiliate sites, find more network sites, and remove sites
- D STAFF MANAGEMENT:** Review all staff on record, including current status and any required actions or approvals

Please see Indications and Important Safety Information on pages 1, 34, and 35, and full [Prescribing Information](#), including **Boxed WARNINGS**, and [Medication Guide](#) for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

Staff Management

Network Admins and Site Admins may add, remove, and edit Site Staff from the Staff Management screen.

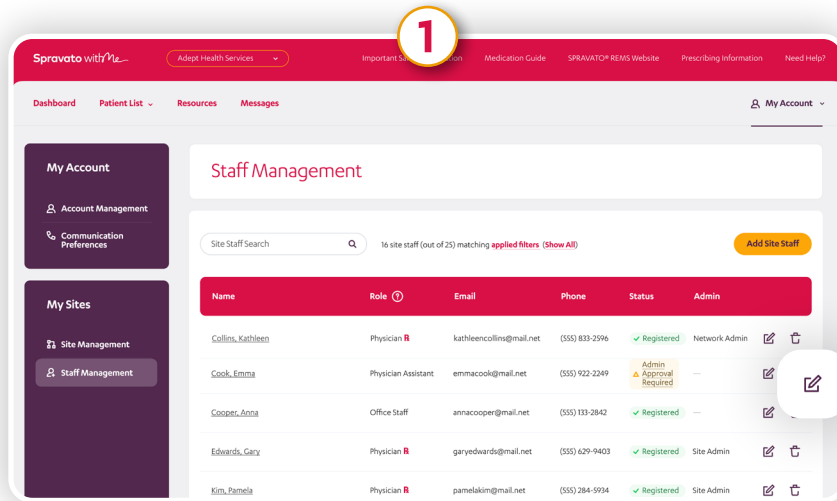

The screenshot displays the Spravato withMe Staff Management interface. The top navigation bar includes links for Important Safety Information, Medication Guide, SPRAVATO[®] REMS Website, Prescribing Information, and Need Help?. The main content area is titled 'Staff Management' and features a search bar with the text '16 site staff (out of 25) matching applied filters (Show All)'. A table lists staff members with columns for Name, Role, Email, Phone, Status, and Admin. Callouts A, B, and C are placed over the 'Add Site Staff' button, the 'Admin' column, and the edit/delete icons respectively.

Name	Role	Email	Phone	Status	Admin
Collins, Kathleen	Physician R	kathleencollins@mail.net	(555) 833-2596	Registered	Network Admin
Cook, Emma	Physician Assistant	emmacook@mail.net	(555) 922-2249	Admin Approval Required	—
Cooper, Anna	Office Staff	annacooper@mail.net	(555) 133-2842	Registered	—
Edwards, Gary	Physician R	garyedwards@mail.net	(555) 629-9403	Registered	Site Admin
Kim, Pamela	Physician R	pamelakim@mail.net	(555) 284-5934	Registered	Site Admin

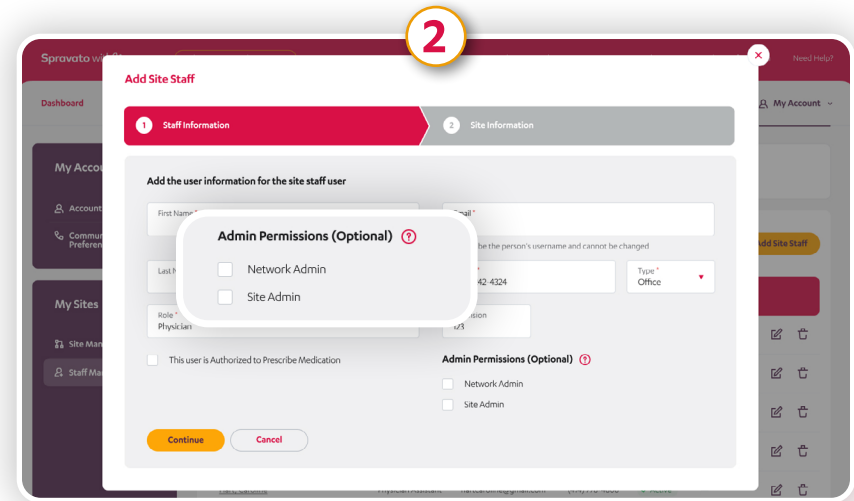

- A ADD SITE STAFF:** Add a new Staff member to the Site currently selected in the dropdown menu at the top of the screen
 - Staff members can be added to more than one Site
- B EDIT:** Make changes to a Staff member's information
- C REMOVE:** Remove a Staff member from a Site – once a staff member is removed, they will no longer have access to patient records and data

Continued >

Staff Management (Cont'd)

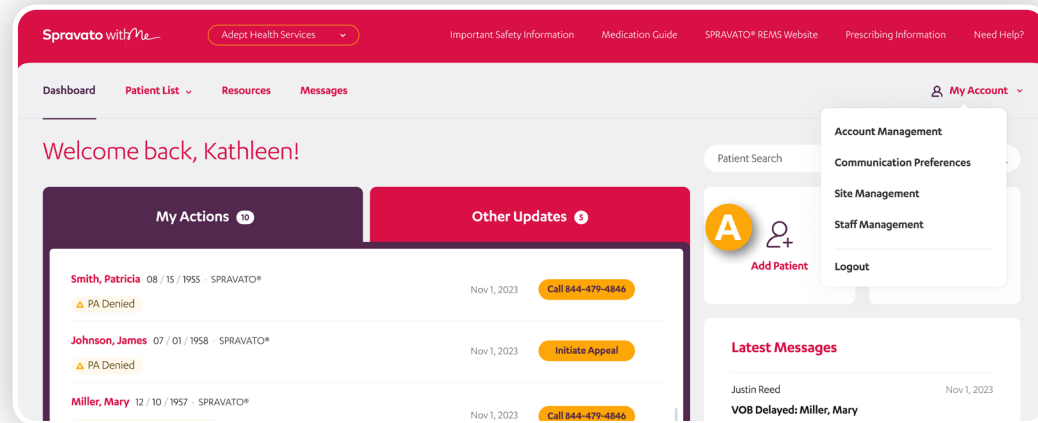

To change a Staff member's access permissions, find the individual on the Staff Management screen, then click the edit button as shown above.

Check or uncheck Network Admin or Site Admin to give this Staff member the desired admin permissions.

Adding New Patients

To begin the process of adding new patients to your site, begin at the Dashboard.

Add a Patient

1 Patient Information 2 Patient Authorization

To add a patient to your account, you will need to provide the Patient Authorization. To access the form, click the button below.

Download Form

Do you have the Program Enrollment Form, including a Patient Authorization form?

Yes

No

Please upload the patient section (pages 3 through A) of the SPRAVATO withMe Program Enrollment and Patient Authorization form.

Drop the file here or click to select

Upload JPG, GIF, PNG, TIF, TIFF, PDF file (Max size of all files uploaded should be less than 3 Mb)

Document Name_01.pdf Delete

Is the patient or the patient's legally authorized representative with you to sign the Patient Authorization Form?

Yes

No

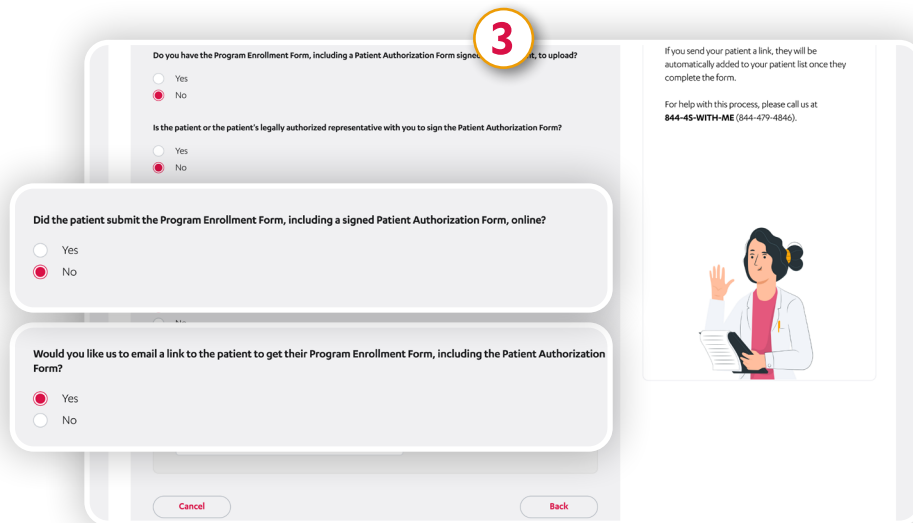

Next, you will need to upload a signed PEF. Please upload pages 3-6 from the patient section of the PEF, which includes Savings Program and Observation Rebate Program enrollment, AOB permission, and Care Navigator opt-in.

If you already have a printed and signed document, it can be scanned and uploaded to the Provider Portal here. If the patient or their legally authorized representative are in the office with you, they can eSign the PEF digitally.

Continued >

Please see **Indications and Important Safety Information** on pages 1, 34, and 35, and full **Prescribing Information**, including **Boxed WARNINGS**, and **Medication Guide** for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

Adding New Patients (Cont'd)

3

Do you have the Program Enrollment Form, including a Patient Authorization Form signed by the patient, to upload?

Yes
 No

Is the patient or the patient's legally authorized representative with you to sign the Patient Authorization Form?

Yes
 No

Did the patient submit the Program Enrollment Form, including a signed Patient Authorization Form, online?

Yes
 No

Would you like us to email a link to the patient to get their Program Enrollment Form, including the Patient Authorization Form?

Yes
 No

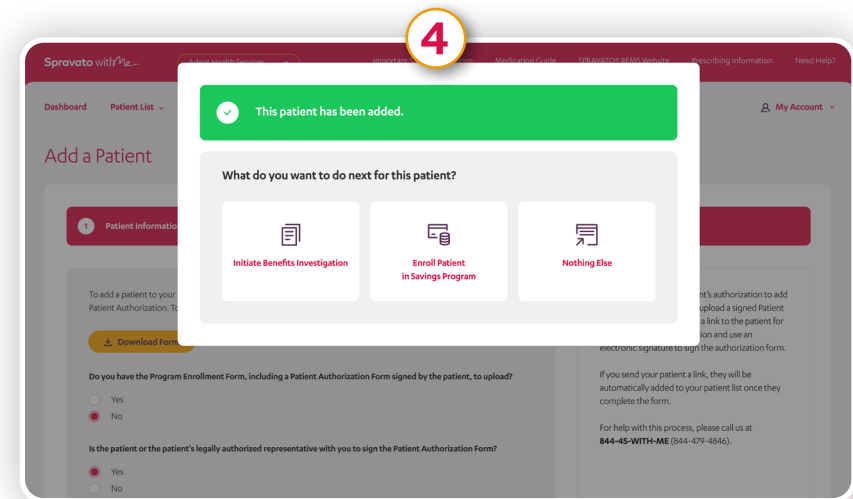

If you send your patient a link, they will be automatically added to your patient list once they complete the form.

For help with this process, please call us at **844-45-WITH-ME** (844-479-4846).

Cancel Back

You can also send the patient a link to the program enrollment and patient authorization site via an email sent from **no-reply@swmpatientsupport.com**.

Alternatively, the patient can scan the QR code, which can be found in the SPRAVATO withMe patient brochure or in the patient section of the PEF, that will direct them to **SPRAVATOwithMePatientAuth.com**, where they can eSign and submit the patient authorization.

4

This patient has been added.

What do you want to do next for this patient?

Initiate Benefits Investigation

Enroll Patient in Savings Program

Nothing Else

When the patient authorization has been submitted and the Patient has been added successfully, you will be given the option to initiate a benefits investigation or enroll the patient in the Savings Program. A benefits investigation will not be automatically conducted after enrolling a Patient – it must be initiated via the portal.

Please note: Click Enroll Patient in Savings Program only if you need the Savings Card right away. Alternatively, if your patient has self-attested on the enrollment form for the Savings Program and Observation Rebate Program and is eligible for the programs, they will be enrolled by the Case Manager within **24 hours**, provided there is no missing or incomplete information. Their downloadable Savings Program card will then be available in the portal.

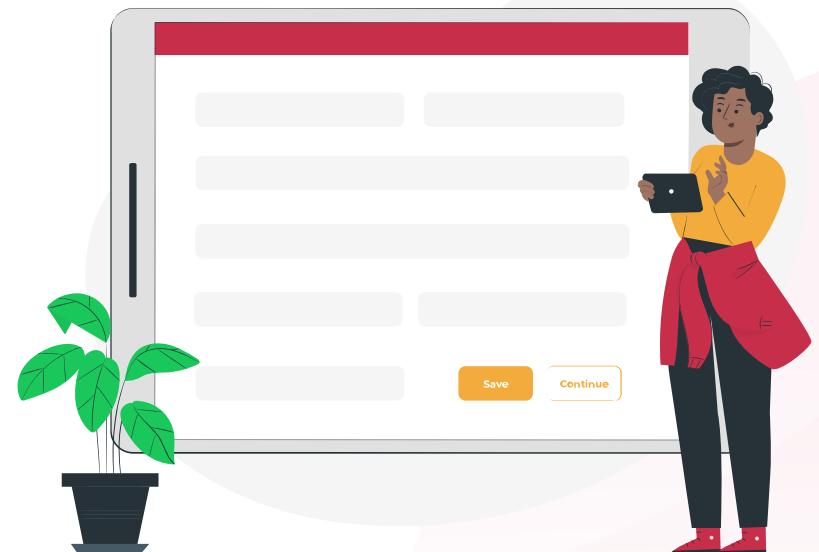

Please see **Indications and Important Safety Information** on pages 1, 34, and 35, and full **Prescribing Information**, including **Boxed WARNINGS**, and **Medication Guide** for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

Methods for SPRAVATO withMe Enrollment

There are four methods to enroll patients into SPRAVATO withMe and have them sign the Patient Authorization. The provider can choose from the following options:

1. An **email** from the provider to the patient with link to eSign
2. A **QR code** to scan in the SPRAVATO withMe Patient Brochure or PEF
3. A **form** located within the portal to eSign **(the only way to enroll a patient instantly)**
4. An uploaded signed paper **PEF**

Please note: A benefits investigation can now be requested during the enrollment process.

Patient Card

Clicking on a patient’s name will open their Patient Card as an overlay to the current tab. The Patient Card provides details and functionality regarding the patient’s demographics, Savings Program enrollment, insurance coverage, and other related treatment support.

The screenshot displays the Spravato withMe web application. At the top, there is a navigation bar with the logo and several utility links: Adept Health Services, Important Safety Information, Medication Guide, SPRAVATO[®] REMS Website, Prescribing Information, and Need Help?. Below this is a secondary navigation bar with options: Dashboard, Patient List (All Active Patients), Resources, and Messages. A search bar with a 'Filters' button and a 'Patient Search' input is present. The main content area shows a table of patients with columns for Patient Name, Date of Birth, Product, Savings Program, and BI/VOB. The patient Patricia Smith is highlighted. An overlay window titled 'Smith, Patricia 08 / 15 / 1955' is open, showing detailed information for SPRAVATO[®] (esketamine) CIII Nasal Spray. This card includes a Patient Summary section with fields for Patient ID, Address, Phone, Email, Medical Insurance, Pharmacy Insurance, Behavioral Health Insurance, and Caregiver, each with an 'Edit' link. It also shows 'Recent Updates' and expandable sections for 'Savings Program' and 'Insurance Coverage'.

Patient Name	Date of Birth	Product	Savings Program	BI/VOB

Patient Card (Cont'd)

A ACTION NEEDED: Actions that are needed by you for your patient will appear at the top of the Patient Card

- These are the same actions as those displayed on the My Actions tab on the landing page and the Patient List. They will be removed as the action is taken and the system updates
- If there are no actions needed for the patient, nothing will show here on the Patient Card

B PATIENT SUMMARY: Overview of patient information, including address, contact information, medical insurance details, pharmacy insurance details, and information about their caregiver(s)

- All of the above can be edited from the Patient Card
- This section also contains a record of all recent updates pertaining to this patient

C SAVINGS PROGRAM: Overview of the patient’s Savings Program enrollment

For Medical Benefit

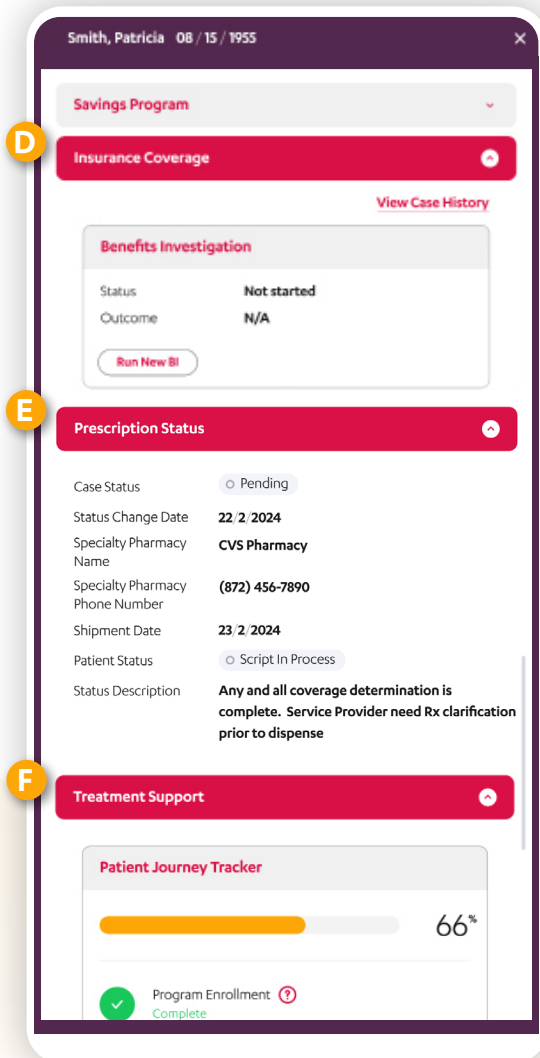

- Details include enrollment status, program year, total benefit, remaining benefit, funds on card, AOB status, and rebate preference
- Ability to submit a rebate and view all Savings Program transactions

For Pharmacy Benefit

- Details include enrollment status, member ID, BIN and group number, total benefit, and remaining benefit
- Ability to view all Savings Program transactions

[Continued >](#)

Patient Card (Cont'd)

D INSURANCE COVERAGE: Overview of information related to the patient’s insurance

Benefits Investigation (BI)

- Status and Outcome readouts
- Ability to View VOB Details
- Ability to Run New BI at any time

Prior Authorization (PA)

- Status and Outcome readouts
- Ability to Run New PA

Appeal

- Status and Outcome readouts
- Ability to Begin Appeal

Exception

- Status and Outcome readouts
- Ability to Begin Exception

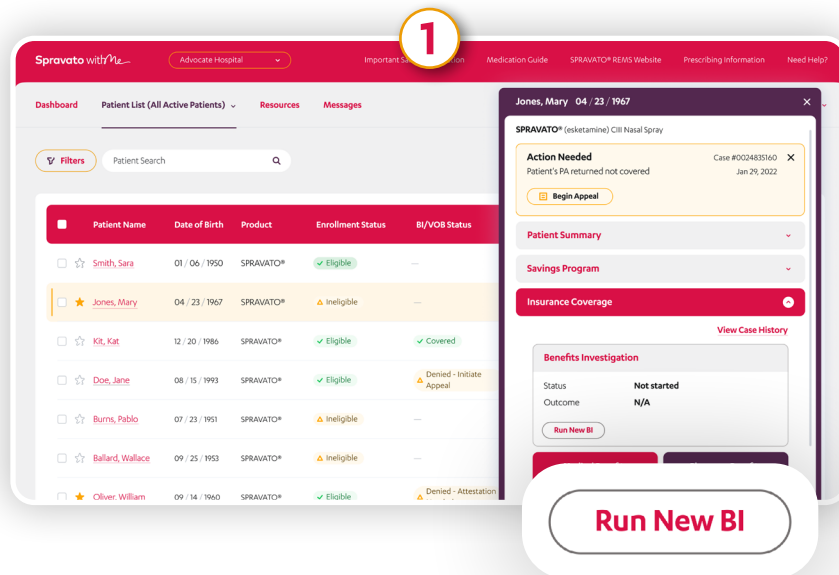

E PRESCRIPTION STATUS: Overview of information related to the patient’s prescription

- Case status
- Shipment date
- Status change date
- Patient status
- Specialty pharmacy name
- Status description
- Specialty pharmacy phone number

Please note: Alerts pertaining to the patient’s prescription will appear in the My Actions tab on the Dashboard in the event that insurance is denied, prior authorization is denied, or the provider and/or patient cannot be reached to confirm shipment

F TREATMENT SUPPORT: Overview of the Patient Journey

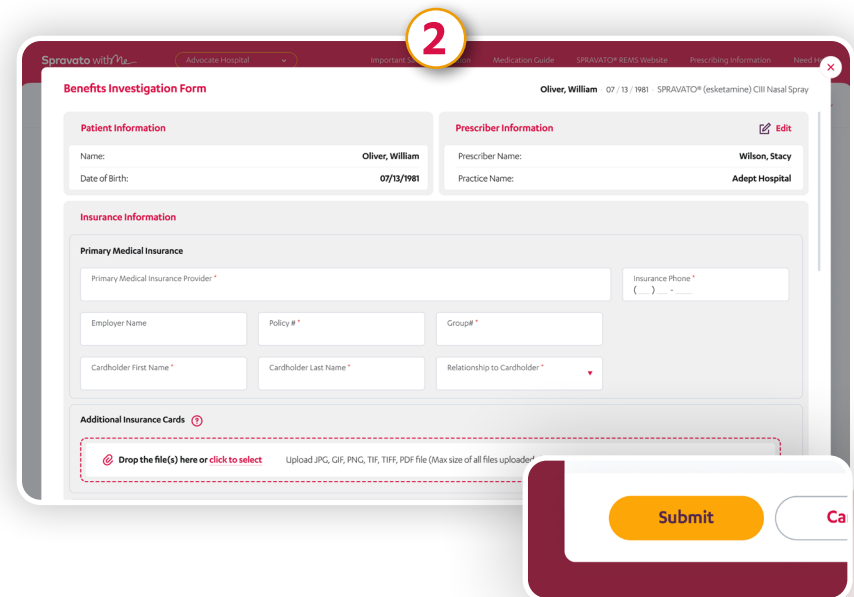

Running a New Benefits Investigation

1

Run New BI

To re-run a benefits investigation, first click Run New BI from the Insurance Coverage section of the Patient Card.

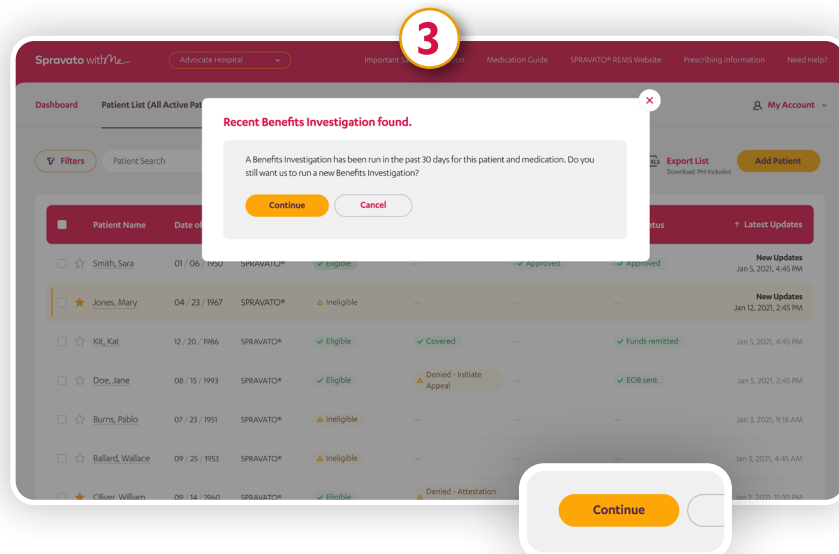

2

Submit

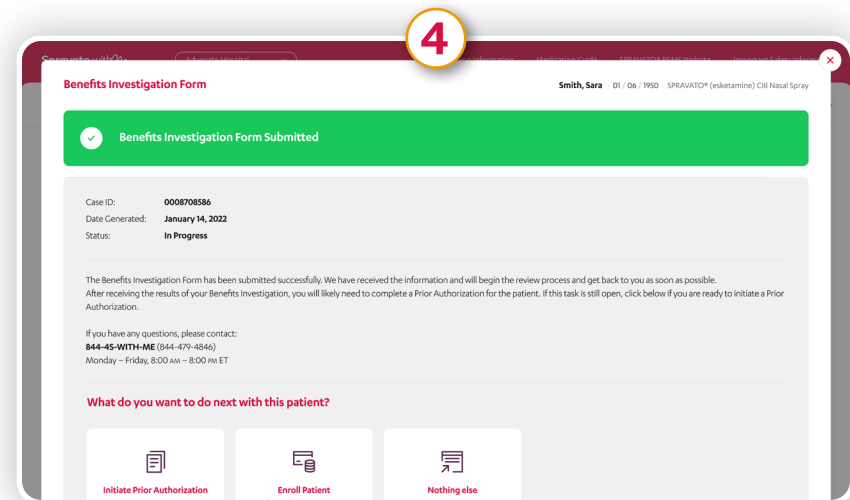

Verify the information already populated on the form, and add anything that's missing. Then, click Submit.

[Continued](#) >

Running a New Benefits Investigation (Cont'd)

If a benefits investigation has been run in the last 30 days, you will see this screen. If you still want to run a new benefits investigation, click Continue.

When the form is submitted successfully, you'll see this screen as confirmation.

Savings Program

The Savings Program section of the Patient Card allows you to view the Patient's Savings Program card, submit a rebate, and view all transactions for this patient. Click **Download Card** to view a card with the patient's member number for the patient to download and print out.

Insurance Coverage

- A SAVINGS PROGRAM/AOB STATUS:** From the Savings Program Patient List, you can check a patient's enrollment in the Savings Program via the Savings Program column, and their **AOB** status via the **AOB Status** column
- B TOTAL BENEFIT:** The dollar amount of the patient's total benefit for the calendar year
- C REMAINING BENEFIT:** The dollar amount of the patient's remaining benefit this calendar year
- D DOWNLOAD CARD:** View a card with the patient's member number for the patient to download and print out
- E SUBMIT REBATE:** Initiate the process of submitting a rebate via the Provider Portal
- F VIEW ALL TRANSACTIONS:** See a history of all recorded Savings Program transactions, submitted rebate requests, and other related communications

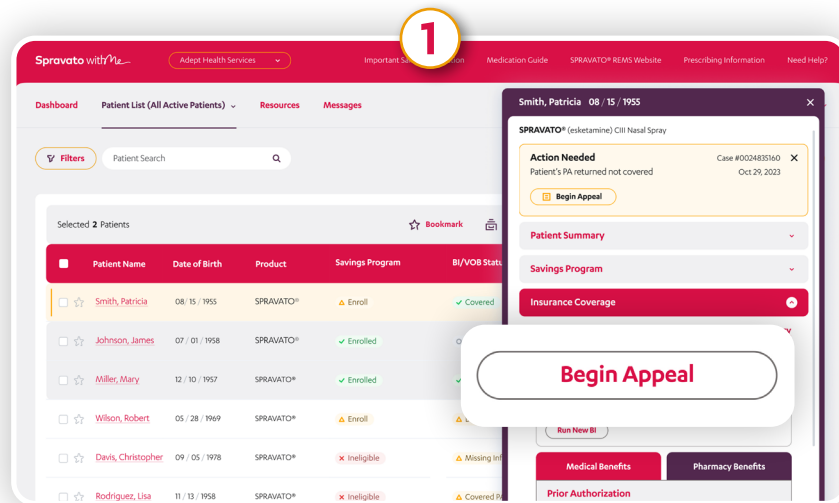

Savings Program Rebates

From the **Savings Program** section of the Patient Card, you can click **Submit Rebate** to initiate the process of submitting a rebate via the Provider Portal, or click **View All Transactions** for further information on historical rebate requests, whether submitted by the provider, patient, or pharmacy. The question mark icon can be clicked to see the reason for a denial.

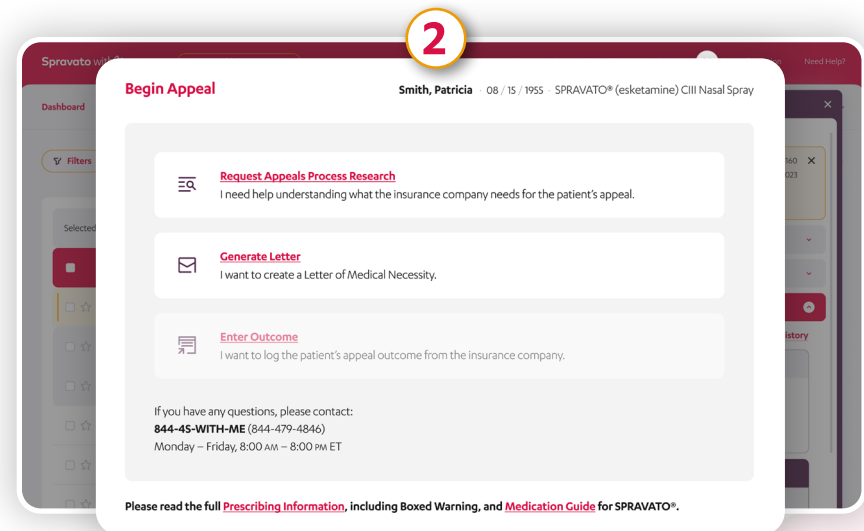

Please see Indications and Important Safety Information on pages 1, 34, and 35, and full **Prescribing Information**, including **Boxed WARNINGS**, and **Medication Guide** for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient’s doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].

Request an Appeal

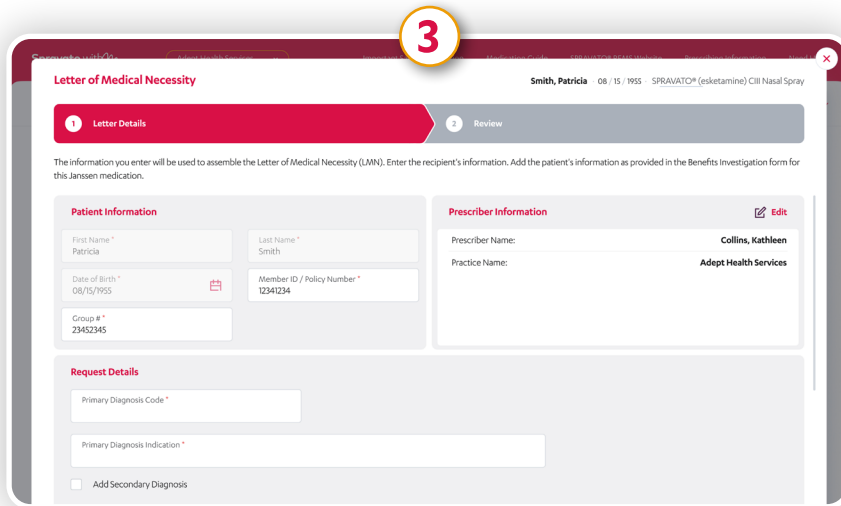

To begin an Appeal, navigate to the Insurance Coverage dropdown of the patient's Patient Card. Find the Appeal section and click **Begin Appeal**.

To proceed, select one of the options shown here.

Once all the necessary information has been added and you have reviewed your request, the Letter of Medical Necessity will be generated in PDF and Word document formats.

Patient Lists

The Patient List tab provides access to lists of patients grouped by patient type or by resources, with contextual links that allow you to perform any required actions efficiently.

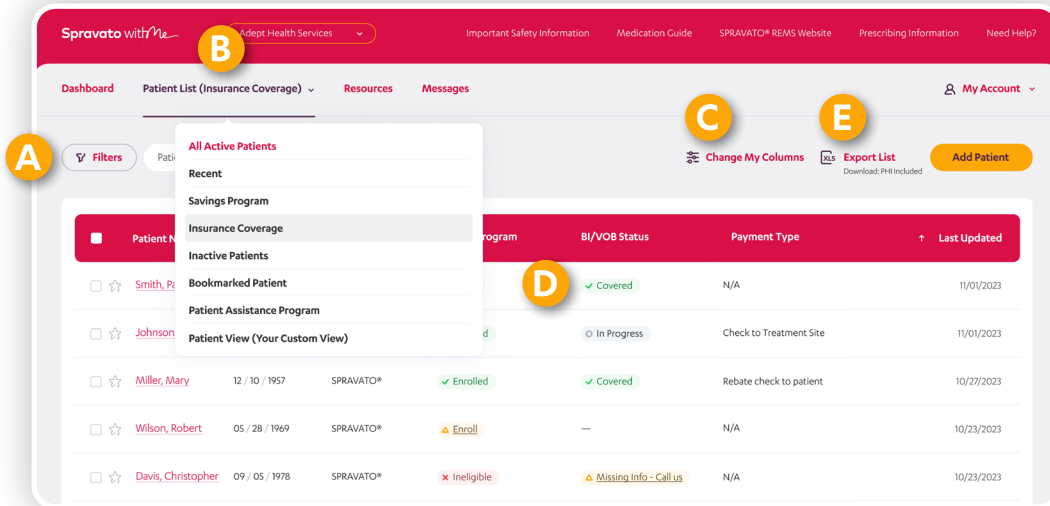

Last Updated	AOB Status	Electronic AOB Link Expiration Days	Payment Type	Transaction Amount	Processed Date	Service Date	Resend AOB Link
New Updates Jan 5, 2021, 4:45 PM	No AOB on file	N/A	N/A				N/A
New Updates Jan 5, 2021, 4:45 PM	Patient Verified AOB	N/A	N/A				N/A
04/23/2023	Patient Verified AOB	N/A	N/A				N/A
04/23/2023	—	N/A	N/A				N/A
06/06/2023	Patient Verified AOB	N/A	N/A				N/A
02/17/2023	Patient Verified AOB				02/14/2023	02/15/2023	N/A

The following lists are available:

- **All Active Patients:** Displayed by default when you visit the Patient List tab, and includes all patients who have had activity in the last 18 months
- **Recent:** Includes all patients who have been accessed in the last 30 days
- ★ **Savings Program:** Displays patient information relevant to the Savings Program, such as enrollment status and information about the most recent transaction – this list also provides an easy way to check whether the patient's **AOB** has been verified via the **AOB Status** column
- **Insurance Coverage:** Displays patient information relevant to insurance coverage, such as VOB status, BI outcome, and PA outcome
- **Pending Patients:** Displays patients who are enrolled but are yet to be approved into the Site by a Site Admin
- **Inactive Patients:** Displays patients who have had no activity for 18 months or have been deactivated by the user
- **Bookmarked Patients:** Displays patient information for those patients who you have bookmarked
- **Patient Assistance Program:** Displays patient information for patients who are enrolled in the Johnson & Johnson Patient Assistance Program
- **Patient View (Your Custom View):** A customizable patient list that you can tailor to your own needs

Need Help?

Clicking the **Need Help?** button – displayed throughout the portal in the top-right corner of the page – gives you access to assistive features.

Need Help

Call SPRAVATO withMe **A**

Have questions about the SPRAVATO withMe Provider Portal? A SPRAVATO withMe Case Manager can help you navigate the Provider Portal and find the resources you need.

844-4S-WITH-ME (844-479-4846)
Monday – Friday, 8:00 AM – 8:00 PM ET

User Guide **B**

Check out the [User Guide](#) to get an overview of the main components of the SPRAVATO withMe Provider Portal.

FAQs **C**

How do I create an account in the SPRAVATO withMe Provider Portal?

You can access the portal directly at [SpravatoProviderPortal.com](#). On the landing page, you will click "create an account" and then be prompted to identify your treatment site location, contact information, and communication preferences. Upon submission, an email will be sent to the email address entered to verify your account set up. If you currently have a Janssen CarePath account for another brand, you will need to provide a new email address in order to create an account with SPRAVATO withMe. If you have questions, a SPRAVATO withMe Case Manager is available at **844-4S-WITHME** (844-479-4846), Monday-Friday, from 8 AM to 8 PM ET.

How do I add a new provider or site staff?

You can go into "My Account," scroll down the drop-down menu, click on "Staff Management" and then click on the orange button, "Add Site Staff". After you add site staff you can select their role - such as Prescriber, Nurse, Office Manager, etc., from the dropdown menu. Remember to click "SUBMIT" at the end. From this page, you can also remove staff by clicking the trash can button or by editing their information. Once removed, they will no longer be able to access the site data.

- A CONTACT US:** Contact information for support
- B USER GUIDE:** This guide, always available for easy access
- C FREQUENTLY ASKED QUESTIONS:** Common questions about using the Provider Portal and resources provided

Frequently Asked Questions

› How do I create an account in the SPRAVATO withMe Provider Portal?

You can access the site directly at spravatoproviderportal.com. On the landing page, you will click **“create an account”** and then be prompted to identify your treatment site location, contact information, and communication preferences. Upon submission, an email from no-reply@swmpatientsupport.com will be sent to the email address entered to verify your account set-up. **Please note:** if you already have a Janssen CarePath Provider Portal account, or a Janssen CarePath account for another brand, you will need to provide a different email address to create a SPRAVATO withMe Provider Portal account – any kind of email address, ie, Gmail or Yahoo, can be used. If you are already a SPRAVATO withMe user, you only need to reset your password, and you can use your existing email address. If you have questions, please contact SPRAVATO withMe at **844-4S-WITHME (844-479-4846)**, Monday-Friday, from 8 AM to 8 PM ET.

› Can I add multiple sites to my profile?

Yes, multiple sites can be added to your profile. If the site already exists in the system, you can add more than one site during initial account setup or, once the account has been created, you can click **My Account** at the top right of the dashboard and add or remove site associations from the Site Management section. If it is a new site that does not exist in the system, please call SPRAVATO withMe so that a Case Manager can provide assistance adding the site. Alternatively, a user with Network Admin permissions may add the site.

[Continued >](#)

Frequently Asked Questions (Cont'd)

› How do I add a new provider/office staff?

Click **My Account** at the top right of the dashboard and navigate to Staff Management. Click the **Add Site Staff** button to add a new staff member – remember to click **Submit** to complete the process. From this screen, you can also remove staff by clicking the **trash can** button or by editing their information. Once removed, the user will no longer be able to access site data.

› How do I add a new Network?

Multisite practices can sign up as a Network to allow users with appropriate permissions to see information about patients and staff members across the Network. To set up a Network, contact a Case Manager via **844-4S-WITH-ME (844-479-4846)**. Before you call, please make sure you know which staff member will serve as Network Admin and which Site will be the Parent Site.

› How do I submit a Program Enrollment Form (PEF)?

You can submit the fully completed PEF by using the Provider Portal directly (**spravatoproviderportal.com**) or using the hard copy PEF. Hard copy signature from PEF can be uploaded in the Provider Portal (**spravatoproviderportal.com**) or sent by fax (844-577-7282).

› How do I enroll a patient in the Savings Program within the portal?

There are two ways to enroll a commercially insured patient into the Savings Program in the Provider Portal.

- The patient can select the option for Savings Program enrollment in the patient section of the Program Enrollment and Patient Authorization Form and, if eligible, they will be enrolled in the Savings Program by the SPRAVATO withMe Case Manager
- If the patient needs a Savings Card immediately, you can click **Enroll Patient in Savings Program** immediately after you add the patient and then answer the eligibility questions. Once you have added the patient, this prompt will also be available in the Provider Portal, from the Patient Summary section of the Patient Card. You will be able to print/download the Savings Card by going into the Savings Program section of the Patient Card, and clicking **Download Card**

› I am having technical problems with the Provider Portal. Can I call someone for assistance?

Call **844-4S-WITHME (844-479-4846)**, Monday through Friday, from 8:00 AM to 8:00 PM ET. The Case Manager can help assist you or open a ticket to resolve technical issues.

Continued >

Frequently Asked Questions (Cont'd)

› How do I submit a claim?

Providers or Site Staff can submit a request via the Patient Card in the portal – rebate activity may be reviewed using the Patient List. Documents can be submitted via the Provider Portal, via fax (844-584-1453) or via mail (2250 Perimeter Park Drive, Suite 300, Morrisville, NC 27560). The documents required to submit a claim are:

- Savings Card number
- Receipt from the treatment provider
- Medical/Pharmacy Rebate Form
- Assignment of Benefits (AOB)
- CMS-1500 form
- Explanation of Benefits (EOB)

› Where do I find claim documents?

Navigate to the Savings Program section of the Patient Card and click **View All Transactions** link. Here, you will find a history of transactions and can generate a report of these claims at a patient level. Click on an individual claim to view any claims documents that have been uploaded.

› How do I upload insurance information in the portal?

You can manually add information about the patient's primary medical insurance and any additional insurances in the portal when completing the benefits investigation form. Alternatively, you can upload pictures of the insurance card in the Treatment Support section of the Patient Card. Please ensure you upload pictures of the front and back of the insurance card.

› What does the color coding on the Dashboard mean?

The color coding meanings are as follows:

- **Green:** Positive outcome
- **Yellow:** Action needed
- **Gray:** In progress
- **Red:** Denial/blocker

IMPORTANT SAFETY INFORMATION (Cont'd)

CONTRAINDICATIONS

SPRAVATO[®] is contraindicated in patients with:

- Aneurysmal vascular disease (including thoracic and abdominal aorta, intracranial and peripheral arterial vessels) or arteriovenous malformation.
- History of intracerebral hemorrhage.
- Hypersensitivity to esketamine, ketamine, or any of the excipients.

WARNINGS AND PRECAUTIONS

Sedation: SPRAVATO[®] may cause sedation or loss of consciousness. In some cases, patients may display diminished or less apparent breathing. In clinical trials, 48% to 61% of SPRAVATO[®]-treated patients developed sedation and 0.3% to 0.4% of SPRAVATO[®]-treated patients experienced loss of consciousness.

Because of the possibility of delayed or prolonged sedation, patients must be monitored by a healthcare provider for at least 2 hours at each treatment session, followed by an assessment to determine when the patient is considered clinically stable and ready to leave the healthcare setting.

Closely monitor for sedation with concomitant use of SPRAVATO[®] with CNS depressants (e.g., benzodiazepines, opioids, alcohol).

Dissociation: The most common psychological effects of SPRAVATO[®] were dissociative or perceptual changes (including distortion of time, space and illusions), derealization and depersonalization (61% to 84% of SPRAVATO[®]-treated patients developed dissociative or perceptual changes). Given its potential to induce dissociative effects, carefully assess patients with psychosis before administering SPRAVATO[®]; treatment should be initiated only if the benefit outweighs the risk.

Because of the risks of dissociation, patients must be monitored by a healthcare provider for at least 2 hours at each treatment session, followed by an assessment to determine when the patient is considered clinically stable and ready to leave the healthcare setting.

Respiratory Depression: In postmarketing experience, respiratory depression was observed with the use of SPRAVATO[®]. In addition, there were rare reports of respiratory arrest.

Because of the risks of respiratory depression, patients must be monitored for changes in respiratory status by a healthcare provider for at least 2 hours (including pulse oximetry) at each treatment session, followed by an assessment to determine when the patient is considered clinically stable and ready to leave the healthcare setting.

Abuse and Misuse: SPRAVATO[®] contains esketamine, a Schedule III controlled substance (CIII), and may be subject to abuse and diversion. Assess each patient's risk for abuse or misuse prior to prescribing and monitor all patients for the development of these behaviors or conditions, including drug-seeking behavior, while on therapy. Individuals with a history of drug abuse or dependence are at greater risk; therefore, use careful consideration prior to treatment of individuals with a history of substance use disorder and monitor for signs of abuse or dependence.

SPRAVATO[®] Risk Evaluation and Mitigation Strategy (REMS): SPRAVATO[®] is available only through a restricted program called the SPRAVATO[®] REMS because of the risks of serious adverse outcomes from sedation, dissociation, respiratory depression, and abuse and misuse.

Important requirements of the SPRAVATO[®] REMS include the following:

- Healthcare settings must be certified in the program and ensure that SPRAVATO[®] is:
 - Only dispensed and administered in healthcare settings.
 - Patients treated in outpatient settings (e.g., medical offices and clinics) must be enrolled in the program.
 - Administered by patients under the direct observation of a healthcare provider and that patients are monitored by a healthcare provider for at least 2 hours after administration of SPRAVATO[®].
- Pharmacies must be certified in the REMS and must only dispense SPRAVATO[®] to healthcare settings that are certified in the program.

Further information, including a list of certified pharmacies, is available at www.SPRAVATOREMS.com/ or 1-855-382-6022.

Suicidal Thoughts and Behaviors in Adolescents and Young Adults: In pooled analyses of placebo-controlled trials of antidepressant drugs (SSRIs and other antidepressant classes) that included adult and pediatric patients, the incidence of suicidal thoughts and behaviors in patients age 24 years and younger was greater than in placebo-treated patients. SPRAVATO[®] is not approved in pediatric (<18 years of age) patients.

There was considerable variation in risk of suicidal thoughts and behaviors among drugs, but there was an increased risk identified in young patients for most drugs studied.

Monitor all antidepressant-treated patients for clinical worsening and emergence of suicidal thoughts and behaviors, especially during the initial few months of drug therapy and at times of dosage changes. Counsel family members or caregivers of patients to monitor for changes in behavior and to alert the healthcare provider. Consider changing the therapeutic regimen, including possibly discontinuing SPRAVATO[®] and/or the concomitant oral antidepressant, in patients whose depression is persistently worse, or who are experiencing emergent suicidal thoughts or behaviors.

Increase in Blood Pressure: SPRAVATO[®] causes increases in systolic and/or diastolic blood pressure (BP) at all recommended doses. Increases in BP peak approximately 40 minutes after SPRAVATO[®] administration and last approximately 4 hours.

Approximately 8% to 19% of SPRAVATO[®]-treated patients experienced an increase of more than 40 mmHg in systolic BP and/or 25 mmHg in diastolic BP in the first 1.5 hours after administration at least once during the first 4 weeks of treatment. A substantial increase in blood pressure could occur after any dose administered even if smaller blood pressure effects were observed with previous administrations. SPRAVATO[®] is contraindicated in patients for whom an increase in BP or intracranial pressure poses a serious risk (e.g., aneurysmal vascular disease, arteriovenous malformation, history

IMPORTANT SAFETY INFORMATION (Cont'd)

of intracerebral hemorrhage). Before prescribing SPRAVATO[®], patients with other cardiovascular and cerebrovascular conditions should be carefully assessed to determine whether the potential benefits of SPRAVATO[®] outweigh its risk.

Assess BP prior to administration of SPRAVATO[®]. In patients whose BP is elevated prior to SPRAVATO[®] administration (as a general guide: >140/90 mmHg), a decision to delay SPRAVATO[®] therapy should take into account the balance of benefit and risk in individual patients.

BP should be monitored for at least 2 hours after SPRAVATO[®] administration. Measure blood pressure around 40 minutes post-dose and subsequently as clinically warranted until values decline. If BP remains high, promptly seek assistance from practitioners experienced in BP management. Refer patients experiencing symptoms of a hypertensive crisis (e.g., chest pain, shortness of breath) or hypertensive encephalopathy (e.g., sudden severe headache, visual disturbances, seizures, diminished consciousness, or focal neurological deficits) immediately for emergency care.

Closely monitor blood pressure with concomitant use of SPRAVATO[®] with psychostimulants (e.g., amphetamines, methylphenidate, modafinil, armodafinil) or monoamine oxidase inhibitors (MAOIs).

In patients with a history of hypertensive encephalopathy, more intensive monitoring, including more frequent blood pressure and symptom assessment, is warranted because these patients are at increased risk for developing encephalopathy with even small increases in blood pressure.

Cognitive Impairment

Short-Term Cognitive Impairment: In a study in healthy volunteers, a single dose of SPRAVATO[®] caused cognitive performance decline 40 minutes post-dose. Compared to placebo-treated subjects, SPRAVATO[®]-treated subjects required a greater effort to complete the cognitive tests at 40 minutes post-dose. Cognitive performance and mental effort were comparable between SPRAVATO[®] and placebo at 2 hours post-dose. Sleepiness was comparable after 4 hours post-dose.

Long-Term Cognitive Impairment: Long-term cognitive and memory impairment have been reported with repeated ketamine misuse or abuse. No adverse effects of SPRAVATO[®] nasal spray on cognitive functioning were observed in a one-year open-label safety study; however, the long-term cognitive effects of SPRAVATO[®] have not been evaluated beyond one year.

Impaired Ability to Drive and Operate Machinery: Before SPRAVATO[®] administration, instruct patients not to engage in potentially hazardous activities requiring complete mental alertness and motor coordination, such as driving a motor vehicle or operating machinery, until the next day following a restful sleep. Patients will need to arrange transportation home following treatment with SPRAVATO[®].

Ulcerative or Interstitial Cystitis: Cases of ulcerative or interstitial cystitis have been reported in individuals with long-term off-label use or misuse/abuse of ketamine. In clinical studies with SPRAVATO[®] nasal spray, there was a higher rate of lower urinary tract symptoms (pollakiuria, dysuria, micturition urgency, nocturia, and

cystitis) in SPRAVATO[®]-treated patients than in placebo-treated patients. No cases of esketamine-related interstitial cystitis were observed in any of the studies, which involved treatment for up to a year.

Monitor for urinary tract and bladder symptoms during the course of treatment with SPRAVATO[®] and refer to an appropriate healthcare provider as clinically warranted.

PREGNANCY, EMBRYO-FETAL TOXICITY, AND LACTATION

SPRAVATO[®] is not recommended during pregnancy. SPRAVATO[®] may cause fetal harm when administered to pregnant women. Advise pregnant women of the potential risk to an infant exposed to SPRAVATO[®] *in utero*. Advise women of reproductive potential to consider pregnancy planning and prevention.

There are risks to the mother associated with untreated depression in pregnancy. If a woman becomes pregnant while being treated with SPRAVATO[®], treatment with SPRAVATO[®] should be discontinued and the patient should be counseled about the potential risk to the fetus.

Pregnancy Exposure Registry: There is a pregnancy exposure registry that monitors pregnancy outcomes in women exposed to antidepressants, including SPRAVATO[®], during pregnancy. Healthcare providers are encouraged to register patients by contacting the National Pregnancy Registry for Antidepressants at 1-844-405-6185 or online at <https://womensmentalhealth.org/clinical-and-research-programs/pregnancyregistry/antidepressants/>.

SPRAVATO[®] is present in human milk. Because of the potential for neurotoxicity, advise patients that breastfeeding is not recommended during treatment with SPRAVATO[®].

SELECT USE IN SPECIFIC POPULATIONS

Geriatric Use: No overall differences in the safety profile were observed between patients 65 years of age and older and patients younger than 65 years of age. At the end of a 4-week, randomized, double-blind study, there was no statistically significant difference between groups on the primary efficacy endpoint.

Hepatic Impairment: SPRAVATO[®]-treated patients with moderate hepatic impairment may need to be monitored for adverse reactions for a longer period of time.

SPRAVATO[®] has not been studied in patients with severe hepatic impairment (Child-Pugh class C). Use in this population is not recommended.

ADVERSE REACTIONS

The most common adverse reactions with SPRAVATO[®] plus oral antidepressant (incidence \geq 5% and at least twice that of placebo nasal spray plus oral antidepressant) were:

TRD: dissociation, dizziness, nausea, sedation, vertigo, hypoesthesia, anxiety, lethargy, blood pressure increased, vomiting, and feeling drunk.

Treatment of depressive symptoms in adults with MDD with acute suicidal ideation or behavior: dissociation, dizziness, sedation, blood pressure increased, hypoesthesia, vomiting, euphoric mood, and vertigo.

cp-170362v5

Please see Indications and Important Safety Information on pages 1, 34, and 35, and full Prescribing Information, including Boxed WARNINGS, and Medication Guide for SPRAVATO[®], also available at spravatohcp.com. The patient support and resources provided by SPRAVATO withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe SPRAVATO[®].
